Danish design and production since 1935

VELA 'Advance' Phlebotomy Chair

Item no. 70038

The VELA 'Advance' Phlebotomy chair is a manually adjustable sampling chair with robust multi-adjustable armrests provides optimal conditions for quick and precise sampling in a high and diverse patient flow. Suitable for the needs of both larger hospitals and general medical practice.

- :: **Patient's arm is optimally supported** by multi-adjustable armrests to provide good conditions for effective sampling
- :: The unique design of the base provides plenty of room for the patient's feet, **making it easy, fast and safe to sit down and get up**
- :: Chair is optimised for a high patient flow with its sturdy construction
- :: The chair can **easily be moved away** while cleaning, as it has easy-running wheels, which work well on all floor types, and a **central wheel brake that can be locked/unlocked with the foot.**
- :: **Sturdy chair and armrests**, suitable for heavy patients and constant changes to settings

STURDY CHAIR AND ARMRESTS,
SUITABLE FOR HEAVY PATIENTS
AND CONSTANT CHANGES TO
SETTINGS

MULTI-ADJUSTABLE
ARMRESTS SUPPORT
PATIENT'S ARM TO ENSURE
PROPER SAMPLING

THE UNIQUE DESIGN OF THE
BASE PROVIDES PLENTY OF
ROOM FOR THE PATIENT'S FEET

WHEELS CAN BE EASILY
UNLOCKED SO THE CHAIR CAN
BE MOVED FOR CLEANING

VELA 'Basic' Phlebotomy Chair

Item no. 80111

ADJUSTABLE ARMRESTS HELP
TO ENSURE PROPER SAMPLING

STABLE BASE THAT IS
FIRMLY FIXED IN PLACE
ON THE FLOOR

The VELA 'Basic' Phlebotomy Chair provides optimal conditions in general practices for fast and accurate sampling with moderate patient flow.

- :: Adjustable armrests **support the patient's arm** and provide good conditions for effective sampling
- :: **Patient can be positioned quickly and secured in a locked base**
- :: Chair is designed for **general practices** with a moderate patient flow
- :: **Sturdy chair and armrests**, suitable for heavy patients and constant changes to settings

Staff chair

Item no. 80131

The VELA Latin 100 is an ideal multi-use chair for office or computer work where a supportive, comfortable and easy-to-adjust chair is needed.

- :: Easy adjustment of seat height and tilt as well as backrest settings provide **active seating positions** that promote movement
- :: Ergonomically shaped seat and backrest that **support and promote good posture**
- :: Pictograms are provided on the chair handle to assist quick and easy chair adjustment

VELA Latin 100

All chairs and stools are available with different types of wheels and a foot-operated height adjustment

Stools

VELA Samba 520

- :: Small and compact stool **ideal for shorter, sedentary work**
- :: Adjustable ergonomic backrest promotes an **active seating position** and **allows the shoulders and arms to move freely**
- :: Compact design makes it easy to move around while sitting
- :: Seat height is easily adjustable

VELA Samba 500

- :: Compact stool without backrest, easy to store under a table when not being used

VELA Samba 420

- :: Saddle seat stool with narrow, adjustable backrest provides **ergonomic seating positions** for varying sedentary work
- :: Provides seated mobility while performing different tasks
- :: Saddle seat with a tilt gives an open hip angle and promotes an active, erect seating position
- :: **Compact design** makes it possible to sit **very close to the equipment, device or patient**

VELA Samba 400

- :: Stool with saddle seat **promotes a good working position and prevents a stooping posture**

Hygiene Benefits

VELA medical chairs are designed to meet the stringent hygiene and disinfecting requirements in the healthcare sector

- :: For optimal hygiene, chairs have easy-to-clean surfaces without recesses where dirt might gather, including the underside of the chair
- :: All backrests are supplied with edge bands to prevent dirt collecting in the joints
- :: The chairs have easily cleanable surfaces without any recesses, where dirt might gather
- :: All parts can withstand disinfection, for example, with alcohol or chlorine at the recommended concentration and mixing ratios
- :: Light-coloured surfaces make it easy to spot marks when cleaning

Distributor Details:

Danish Quality

VELA is a Danish family-owned company founded in 1935 by Verrmund Larsen. VELA is headquartered in Aalborg, Denmark and has its own development department, and production and padding workshop. In order to be close to our customers, we have a strong, international dealer network.

CHAIRS DESIGNED WITH CARE AND PRECISION

The development department at VELA is constantly focused on optimising safety, functionality and ergonomics in cooperation with health professionals.

We take into consideration that chairs in the healthcare sector are exposed to severe wear and tear for many hours each day. At VELA, we use hard-wearing mechanical parts and extra-durable seating materials to keep the chairs clean and functional for many years. All VELA chairs are CE marked and made in Denmark.
